WELCOME BONUS

S\$15,000

Year 1 bonus credited to the policy account

Welcome bonus rate	15.0%
On S\$100,000 annualised premium	

Year 1 bonuses (total)	S\$17,000
Welcome + annual premium bonus	

Annual premium bonus rate	2.00%
---------------------------	-------

Loyalty bonus rate	0.30%
Per year, after MIP, no recent withdrawals	

Total bonuses (over horizon)	S\$93,717
------------------------------	-----------

CHARGES INCLUDED

S\$268,856

Total modelled charges across the projection

Admin charge	S\$268,856
2.50% during MIP / 0.70% after	

Policy fee	S\$0
Banded fee where applicable	

Shortfall charge	S\$0
If basic premium falls short before flexi date	

COI / protection charge	S\$0
On Death/TI net amount at risk	

Partial-withdrawal charges	S\$0
----------------------------	------

Other deductions	S\$0
------------------	------

Fund management charges are **not** double-deducted — the fund's NAV already reflects them.

LEGACY PROTECTION

101%

Of net capital paid — Death & Terminal Illness benefit

Death/TI benefit at end-age	S\$1,854,426
-----------------------------	--------------

Capital paid in	S\$300,000
-----------------	------------

Surrender value at end-age	S\$1,854,426
Cash-out value, after charges	

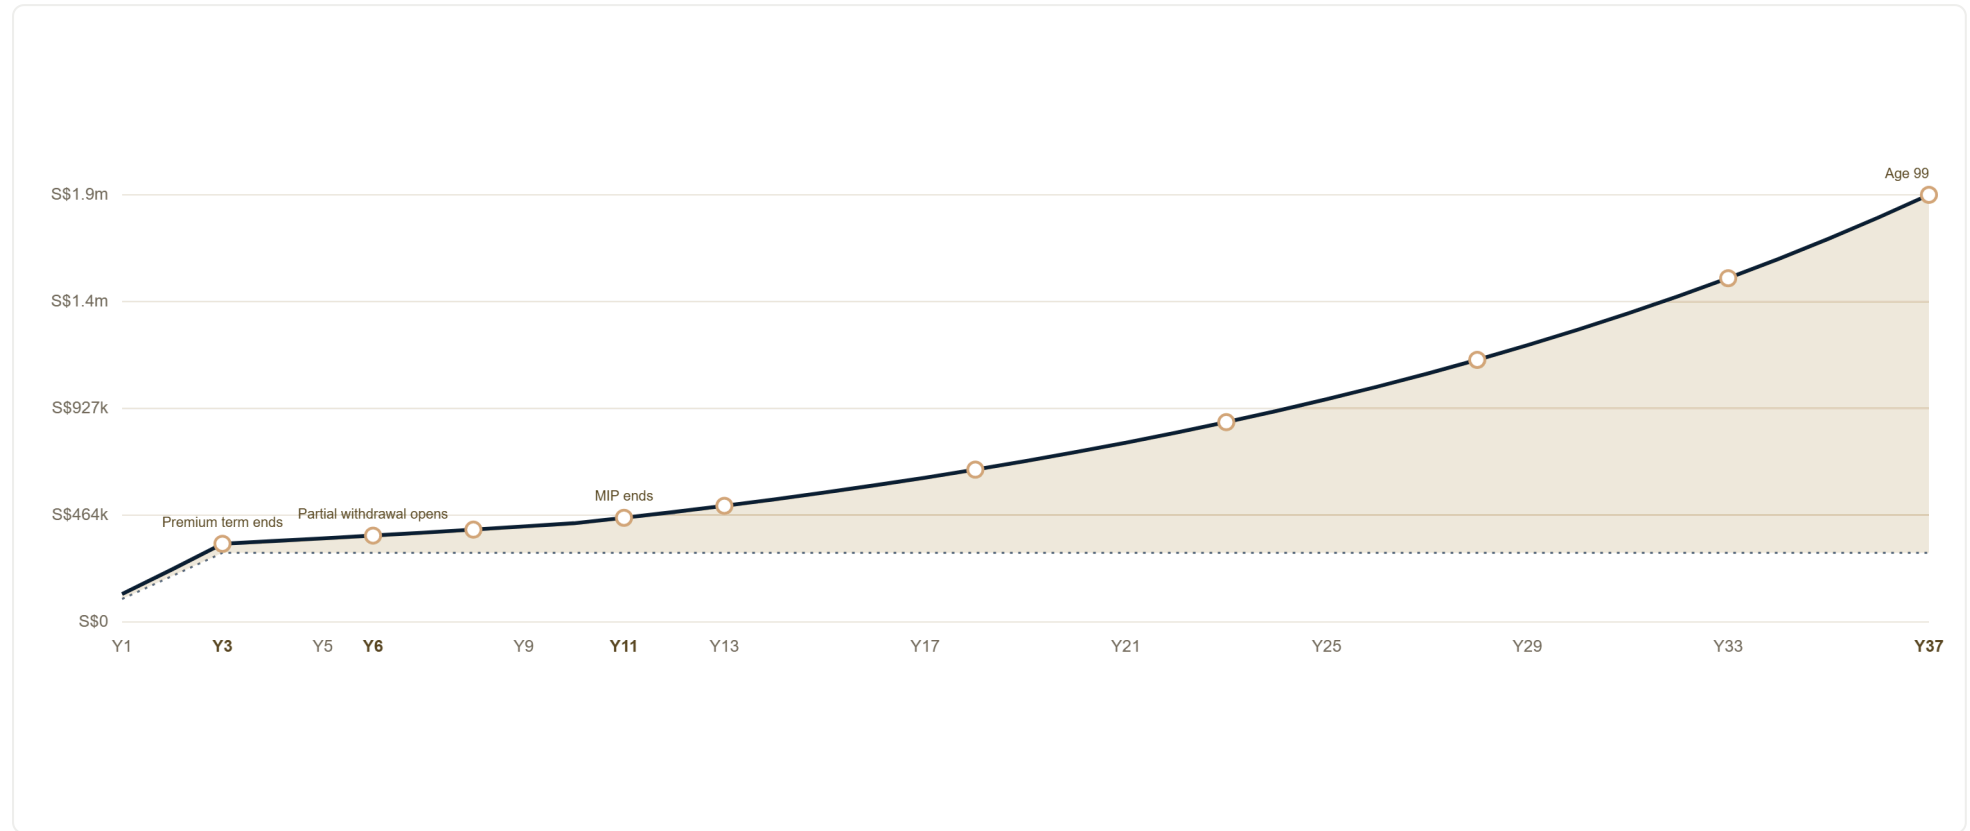

Applies to the **Death & Terminal Illness** benefit only — surrender value is not capital-protected and may be lower than premiums paid, particularly in early years.

Calculated access points

FROM THIS SCENARIO

Partial withdrawal access starts

Year 6, age 68

Partial Withdrawal (8% charge) S\$125,640.344

Dividend account S\$102,000

Total Withdrawal S\$227,640.024 (75.9% of premiums paid)

Full cashout available

Year 11, age 73

Capital account S\$231,060

Dividend account S\$221,313

Total cashout S\$452,374 (150.8% of premiums paid)

Charge schedule

10 YEARS FLEXI 3

Partial-withdrawal charge

Policy year	Charge
Year 1	100%
Year 2	100%
Year 3	79%
Year 4	60%
Year 5	50%
Year 6	8%
Year 7	8%
Year 8	8%
Year 9	8%
Year 10	8%

Notes

- Partial-withdrawal access opens from year 6 for variants that allow it; before then only dividend drawdown is available where applicable.
- Surrender values shown in this deck are net of admin and surrender charge.
- Dividend drawdown is limited to the reinvested-dividend basis at the time of withdrawal.
- Total cashout figures shown on the access cards are net of all applicable charges modelled in this scenario.

Important Disclaimers

SOURCE DOCUMENTS PREVAIL

1. Educational purpose only

This illustration is prepared for educational and discussion purposes between an advisor and client. It is not an offer, solicitation or recommendation to buy or sell any financial product, and is not for distribution or reproduction without authorisation.

2. Not financial advice

Information shown does not constitute investment, tax or legal advice. Clients should consult a licensed financial advisor and consider their own objectives, financial situation and needs before making any investment decision.

3. Investment risk

The underlying assets are invested in funds whose values are subject to market fluctuations. Investments carry risks, including the possible loss of the principal amount invested. The value of units in the underlying funds, and any income from them, may rise as well as fall.

4. Non-guaranteed projections

Projected account values, total values, dividends and bonuses shown here are illustrative only, based on the NAV growth and dividend rates entered for each year. They are not guaranteed and may differ materially from actual future performance. Past performance of any fund is not necessarily indicative of future performance.

5. Bonuses and dividends

Welcome Bonus, Annual Premium Bonus, Loyalty Bonus and dividend payouts are subject to the policy's terms — including premium payment conditions and the actual performance of the underlying funds — and are not guaranteed.

6. Charges

Projections are net of the admin and partial-withdrawal charges modelled here. The product is subject to other fees and charges set out in the policy contract and product summary, including but not limited to fund management charges, surrender charges and applicable deductions.

7. Currency risk

Where the policy currency differs from the client's reference currency, projected outcomes may be affected by exchange rate fluctuations.

8. Capital protection

The "101% Capital Protected" feature applies only to the Death and Terminal Illness Benefit as defined in the policy contract. Surrender value is not guaranteed and, particularly during the early policy years, may be less than total premiums paid.

9. Source documents prevail

Please refer to the policy contract, product summary and fund factsheets for the full terms, conditions, charges and risk disclosures. In the event of any discrepancy, those documents prevail over this illustration.
